EDUCATION

University of California, Irvine
Bachelor of Science in Computer Science

Irvine, CA
Sep. 2023 – Jun. 2025

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, SQL, HTML/CSS
Databases: MySQL, PostgreSQL
Frameworks: React, Node.js, Express.js, Tailwind CSS, jQuery
Tools: Git, GitHub, AWS (EC2), Vite, Vercel, JDBC, Postman, IntelliJ IDEA, VS Code

PROJECTS

BranchOut (1st Place, UCI FUSIONCon 2025)

Nov. 2024 – May 2025

React, Tailwind CSS, Node.js, Express.js

Live Demo | GitHub Repo

- Collaborated within a **9-member team** to architect a professional networking system designed to bridge the "insight gap" for **100,000+ students** in the University of California system.
- Developed interactive UI modules for the **Feed** and **Resources** features using **React** and **Tailwind CSS**, facilitating community engagement and professional document management.
- Implemented RESTful backend routes via **Express.js** and validated system integrity across **10+ endpoints** using **Postman** to ensure secure data exchange.
- Awarded **1st Place (Best Project Overall)** at **UCI FUSIONCon 2025** after presenting the prototype to a panel of **industry judges and FUSION Project directors**, demonstrating the platform's potential to bridge professional equity gaps.

Fabflix

Apr. 2025 – Jun. 2025

Java, JavaScript, MySQL, JDBC, Tomcat, AWS

(GitHub Repo)

- Engineered a full-stack movie database platform using **Java Servlets**, **Tomcat**, and **MySQL**, supporting search, filtering, and checkout workflows across title, actor, genre, and year.
- Designed and implemented server-side routing and **session-based authentication** using **Java Servlets** and **JDBC**, managing user state and access control.
- Built a **SAX-based streaming XML parser** to efficiently ingest and batch-insert **20,000+ movies** and **50,000+ actors** into MySQL using JDBC batch operations.
- Provisioned and configured an **AWS EC2** instance with **HTTPS** enabled to deploy the application and support secure remote access.

Personal Portfolio

Oct. 2025 – Present

JavaScript, HTML, Tailwind CSS, Vite, Vercel

(GitHub Repo)

- Built and deployed a personal portfolio site via **Vercel's** automated CI/CD pipeline using **Vite**, **HTML**, **Tailwind CSS**, and **JavaScript**, to showcase projects, educational background, and contact points.
- Resolved production routing and static asset issues (module scripts, resume PDF delivery) to ensure reliable navigation, downloads, and presentation in the live environment.

EXPERIENCE

Starbucks Coffee Company

Sep. 2021 – Present

Barista/Barista Trainer

Norco, CA

- Collaborated with 6–10 partners per shift to maintain drive-thru times under 45 seconds during peak hours in a high-volume environment.
- Spearheaded training sessions with new hires on menu items, POS systems, company mission & values, and customer service expectations.

theCoderSchool Yorba Linda

Jun. 2022 – Oct. 2022

Coding Coach | Scratch, Python, C++

Yorba Linda, CA

- Translated complex programming concepts in **Scratch**, **Python**, and **C++** into accessible lessons for students aged 6-17, tailoring instruction to individual learning paces and skill levels.
- Mentored an average of **7 students weekly** through 1-on-1 and group sessions, guiding foundational principles and the development of personal coding projects.
